3-4 Rebecca M Legowski

5-6 Christopher LD Munday

7-8 Peter Church (C)

Birthday compliments to: 1-2.

50th on physical handbells: 3-4.

Out and about

We are still suffering from the impact of coronavirus, with West of Weighton ringers depleted, and those that are left are "fighting" with St Clement's CB Minor. Noting the persistence of this group, St Clement's will come before long.

Well done to Bill Lennox for getting into ringing Treble Bob in hand. With no regular opportunity for handbells, Abel is Bill's practise medium

The peals that got away

Kent TB Major on physical bells seemed to settle down but eventually proved fragile. A later repeat had its moments but also eventually escaped us.

5 Plain Minor methods was spiked by an internet glitch after 1hr and 50 minutes with just one extent of Plain Bob left to ring.

Plain Bob Major was miscalled by yours truly (how embarrassing and disappointing).

The Learning Curve

The internet is a great resource but finding stuff is sometimes harder than time allows. But handbell ringing queries have a great resource on hand, the Glossary of Terms.

Go to:

www.handbellringing.org.uk

Then go to the Appendix and choose from: ***Local Glossary*** or ***Change ringing info***

Records

Please note with the advent of the hybrid name of Beverley & District Society and Yorkshire Association, it is no longer possible to do a simple search for handbell performances for B&D as this will omit results recorded as rung jointly with YACR. For a comprehensive view on handbell ringing in the area the Hull Handbells Project website is the best option.

www.handbellringing.org.uk
